Whitney Benefits Community Report

The Foundation of Edward A. Whitney: Building a better community for youth and education

100 Years later : The incredible story of Edward A. Whitney

1843

Edward Augustus Whitney was born March 24, 1843, in Dalton, Massachusetts.

From 1856 to 1859, Whitney attended the Sillig Institution, a boys school near Vevey, Switzerland.

1856

1872

In 1872, Whitney moved to West Union, Iowa, and co-founded the Fayette County National Bank, serving as its first cashier.

1885

In 1885, Whitney arrived in Sheridan. Whitney brought capital, his skills as a banker and community leader, investing these in the fledgling town of Sheridan.

1890

The town of 70 grew to nearly 1,000 by 1890, and the bank's depositors numbered 560. Partnering with other Sheridan investors including, John Kendrick, Whitney's bank became the First National Bank.

1917

Whitney died at the age of 74 on Nov. 17, 1917. The cause of his death was chronic bronchiectasis, from which he had suffered for a number of years.

1926

In 1926, the Whitney Trust Company building was created as the home for the Sheridan Banking Company and Sheridan Credit Savings Bank, founded by Whitney in 1894.

1927

In 1927, his estate trustees established Whitney Benefits Incorporated according to the very precise instructions in his will.

Sheridan area benefactor Edward A. Whitney willed his estate to establish Whitney Benefits Inc., creating the first educational foundation in Wyoming.

According to his original trustees, Whitney spent three decades of his life planning his gift to the people of Sheridan County.

He made extensive investigations in the East as to how trust funds were structured for education, and repeatedly asked his three associates, later to become the trustees of his estate, for suggestions.

The foundation was established in 1927, 10 years after his death in 1917, as provided by his will. In the years since

'My estate does not belong to me; I'm only its steward: it belongs to the people and I dare not be careless with it.'

Edward A. Whitney

the establishment of the foundation the earnings from the trust have provided over \$41 million in interest-free loans to 5,838 local students, contributed over \$85

million to Sheridan College, provided over \$11.7 million to the YMCA, built Whitney Commons Park and the Sheridan Ice Rink, established the Whitney Center and benefited the area and its people in many other ways.

The portrait below shows Whitney walking his Adams Ranch, a portion of which would become Sheridan College.

The portrait, painted by Kathy Sabine and commissioned by Sheridan College, was specifically commissioned for the opening of the Edward A. Whitney Academic Center at Sheridan College.

You can find the portrait displayed above the central fireplace.

Whitney Days at Sheridan College

Whitney Benefits and Sheridan College partnered to host several events to honor Mr. Whitney on this 100th year since his death. He left a legacy of expanding and contributing to education in Sheridan County that Whitney Benefits has continued.

During the week of Sep. 18-24, 2017, Sheridan College hosted a Whitney cupcake collage, a Trip Around the World with Whitney, panning for sapphires, Whitney's Wild West Wednesday (rubber band gun target shooting, horseshoes, stick horse rodeo, refreshments, photos, music, an open house and tours), service project opportunities, Pat Hamilton Memorial Rodeo, comedian Adam Grabowski, a s'mores bar, SADHA Miles for Smiles 5k run/walk, a tailgate party (BBQ lunch, inflatable games, photobox, yard games and music), cowboy church and a barn dance. On November 14th, Whitney Benefits, the WYO Theater and the Sheridan College Foundation co-hosted a re-dedication of the North Wing of the WYO Performing Arts & Education Center, Hallmark Building / WYO Theater. On November 17th, Sheridan College and Whitney Benefits hosted a Jazz Orchestra performance at the Whitney Center for the Arts. Nov. 17, 2017 was the 100th anniversary of Mr. Edward A. Whitney's death.

WHITNEY COMMONS PARK

Whitney Commons, an interactive park located in the center of Sheridan between the Fulmer Library and the senior center at 320 W. Alger St., has something for everyone to enjoy. Several features include a universally accessible play structure designed for fun and safety, large turf areas supporting any number of informal leisure activities, the popular water spray grounds, an amphitheater and plaza area, vintage lighting illuminating pedestrian walks and bike paths, the Dorothy King reflective flower garden and closed circuit cameras providing park security and online viewing.

Bronze art pieces reflecting and honoring Mr. Whitney's life have also added beauty and interest to the park. Whitney Benefits completed several projects and renovation repairs to areas of the park this year including additional park signage, new mowing equipment, resetting and grouting the retaining wall capstones, updating additional security cameras, repairs and maintenance to the spraygrounds, purchasing additional snow removal equipment and planting more flowers and greenery in the many plant beds. Whitney Commons is a safe, clean and fun environment for families and the Sheridan community to enjoy!

COURTESY PHOTO | WHITNEY BENEFITS

Whitney Plaza

Whitney Plaza offers retail, office and residential property and has nearly 500 parking spaces for various community and business uses. The Whitney Plaza Owner's Association has extended complimentary use of the Whitney Plaza parking lots during Sheridan's annual WYO Rodeo parade and for multiple community events. Several construction projects have recently been completed at Whitney Plaza including the new Cowboy State Bank building and an office building being leased to Wyoming Workforce Services and Family Services offices. A new professional office building is also currently being constructed for an accounting firm and physical therapy services. The design of these new buildings in Whitney Plaza reflects that of properties located in Sheridan's historic downtown business district. Whitney Benefits and the Whitney Plaza Owner's Association welcome these businesses to the Whitney Plaza neighborhood!

A gift of water

In 2017, Whitney Benefits gifted the city of Sheridan in excess of 50 million gallons of stored Park Reservoir water to assist in watering Sheridan's 13 parks, pathways and greenways, including the Sheridan Recreation District's Thorne-Rider Park, Oatts Baseball Complex, Dan Media Field and the elk pasture irrigation and restoration project at Kendrick Park. Additionally, Whitney contributes water to the University of Wyoming Science and Research Center located at Whitney's Adams ranch for students and educators with experimental test plots, grape vineyards and crop irrigation.

Out of the Darkness suicide prevention walk

The seventh annual Out of the Darkness Walk was held on Sept. 16, 2017. Around 200 people braved the rainy and windy weather to participate in the event. Registration and the opening presentation were moved to the YMCA due to the weather, but the 2-mile walk continued through Whitney Commons park as originally planned. This walk provides the community with an opportunity to come together to remember loved ones and shine a light on the stigma that surrounds suicide and mental health problems. The event was hosted by the Wyoming Chapter of the American Foundation for Suicide Prevention.

March Against Family Violence

October is National Domestic Violence Awareness month. The Advocacy and Resource Center in Sheridan and the Compass Center for Families teamed up to hold the March Against Family Violence, which took place Oct. 14, 2017, ending in Whitney Commons park. The Advocacy and Resource Center in Sheridan provides assistance to victims of violence that may not have anywhere else to turn or may have ended up in the justice system as a result of the violence. The march aimed to raise awareness of family violence and to show that healthy families make a healthy community.

JUSTIN SHEELEY | THE SHERIDAN PRESS

Alzheimer's Memory Walk

The Senior Center hosted the Alzheimer's Memory Walk in Whitney Commons Park on June 20, 2017, from 4-7p.m. This walk showed support to those suffering from Alzheimer's and their family members and care givers.

6th annual Sheridan County Chamber of Commerce Suds N' Spurs Brewfest

JUSTIN SHEELEY | THE SHERIDAN PRESS

The Sheridan County Chamber of Commerce hosted the sixth annual Suds 'n Spurs Brewfest at Whitney Commons on Aug. 26, 2017. Whitney Commons was the perfect venue for this event, which had 1,500 participants and raised around \$45,000. This is the major fundraiser for the Chamber of Commerce with funds dedicated to furthering the missions of their volunteer committees and to education and training opportunities for the Sheridan business community. They had 23 brewers from Wyoming, Montana, South Dakota, Colorado and Utah, including Sheridan's own Black Tooth and Luminous breweries. Brewers competed in a judged competition in best lager and a People's Choice Award.

Relay for Life cancer awareness fundraiser

The Relay for Life of Sheridan and Johnson Counties was held at Whitney Commons on June 10, 2017. There were approximately

200 people in attendance. This event was a celebration of the year-long fundraising and is the signature fundraiser event for the American Cancer

Society. At the end of this event, \$45,461 was raised in honor of all cancer survivors, remembrance of loved ones lost to cancer and to make a global

impact on cancer. The event included a survivor dinner and a candle ceremony to honor those that have been lost.

COURTESY PHOTO | WHITNEY BENEFITS

The Link, Partners in Pink run/walk

The Link Partners in Pink eighth annual run and walk was held on Saturday, Oct. 21, 2017, beginning at 10 a.m. The events offered were a 10K run, a 5K run/walk and a 1.5-mile walk. The races started and ended in Whitney Commons Park. This event is organized by the Sheridan Memorial Hospital Foundation to raise funds to upgrade Sheridan Memorial Hospital's current digital mammography equipment to tomosynthesis (3-D) mammography machine. This year, there were over 500 registered participants and close to 100 volunteers involved with The Link activities. Proceeds are still being calculated but the Sheridan Memorial Hospital Foundation is hoping to have raised nearly \$25,000 from the event.

KRISTEN CZABAN | THE SHERIDAN PRESS

Whitney Benefits thanks scholars for supporting mission

Thank you for your support of Mr. Edward A. Whitney's educational mission in our local communities or wherever you might currently reside. You are one of the 5,600-plus students that have been in Whitney's interest free student loan program that was developed in 1927.

You are a part of our history and a part of our future as a Whitney Scholar.

Whitney hopes to be in touch with those of you that we might have lost contact with.

If you would please send your current contact information, we would certainly appreciate it.

There is a form that can be completed on our website at www.whitneybenefits.org. We look forward to hearing from you and look forward to hearing of your successes.

Whitney also would like to share your accomplishments with others with your permission. If you are interested in sharing your story with us, please contact us at the Whitney office at 307-674-7303.

Student loan program features online application

The Whitney student loan program provides interest-free student loans to Sheridan and Johnson County high school graduates.

Since inception of the program in 1928, through June 30, 2017, the corporation has loaned 5,838 students approximately \$41,740,341.65. For the fiscal year that ended June 30, 2017, Whitney approved interest free loans totaling \$2,312,938.45 to 119 students; 91 students received loans for the first time and 28 students had received loans previously.

As of June 30, 2017, Whitney has \$13,212,704.66 in student loan monies loaned and/or committed to Sheridan and Johnson County students.

Whitney Benefits uses an online student loan application process.

This process was a first step in allowing Whitney to go to a paperless system and also meets the electronic preference of current high school graduates.

The Whitney staff presents the student loan program information each year at the Sheridan and Johnson County high schools' financial aid nights in an effort to inform the community about this unique and valuable opportunity. For the 2017-2018 school year, undergraduate students may be eligible to borrow a credit limit up to \$24,000, up to \$6,000 per academic year.

Whitney Benefits acknowledges and thanks the Homer A. Scott and Mildred S. Scott Foundation for its past \$250,000 gift to further the commitment to provide interest free student loans.

\$900,000 for housing at Sheridan College

Whitney continues to donate funds to Sheridan College for its student housing. In 2008, Whitney committed to gifting \$750,000 per year for 10 years as part of a \$7.5 million gift to Sheridan College for their continued support of efforts to expand the on-campus living facilities. The 150-bed suite style student housing units have vastly expanded Sheridan College's ability to recruit and house new students. The Whitney Lofts also added a new food court area in the Hayes Building and a recreational lounge area in the Williams building. The new housing at Sheridan College provides a new and unique opportunity for students to grow, foster educational opportunities and enjoy their college educations. In 2017, Whitney Benefits also granted \$200,000 to Sheridan College to gut and renovate the existing family housing units. The space was repurposed to create 35 new beds that will better serve the needs of the college students.

Whitney continues support for Sheridan College Thorne Rider Campus Center - a hub for campus

Whitney continues to donate funds for the renovation and expansion of the Thorne-Rider Campus Center at Sheridan College.

In 2017, Whitney completed its final installment of \$250,000 for this project as part of a \$1,500,000 gift to Sheridan College in support of the \$11.7 million renovation and expansion project of the Thorne-Rider Campus Center and the creation of an outdoor landscaped plaza area connecting the Campus Center and the Whitney Building. One-half, or \$750,000, of the gift was for the building itself and the additional \$750,000 was for the plaza.

The previous student center building was built in 1966 and was sized to accommodate 100 students living on campus. The college now has more than 400 students living on campus. The Thorne-Rider Campus Center is located at the hub of the campus and the new design encourages everyone on campus to spend some time there.

The previous 16,000-square-foot building was completely renovated and 12,000 square feet was added to the campus center. Food service is now organized food court style, with six open preparation and service areas, a pizza and coffee shop and flexible furniture in various styles to support an educational atmosphere.

The dining area can now seat up to 500 people on the upper level and will support the plan for 750 students living on campus within the next decade plus about 250 commuter students and employees daily. Other features in the space include an activities room, multi-purpose meeting rooms, campus safety offices and a Veterans Center to service the 120 veterans currently enrolled at Sheridan College.

Whitney thanks all of the donors and private foundations involved in this project for their continued financial commitment to Sheridan College.

COURTESY PHOTO | WHITNEY BENEFITS

\$250,000 to fund agriculture instructor position

In January 2016, Whitney Benefits committed to grant \$250,000 for three years to fund an Endowed Agriculture Instructor position at Sheridan College. This position was created to keep pace with increasing enrollment, educational excellence and educational research at Sheridan College. Additionally, the recently opened Mars Agriculture Center, a 15,000-square-foot state-of-the-art facility that is located on the south end of Sheridan College's main campus connecting to the existing Science Center, has also increased prospective students interest in agriculture and sciences. The center focuses on providing real-world experiences for students.

New positions at Sheridan College

In 2016, Whitney Benefits committed to funding three new positions at Sheridan College for three years. In 2017, \$200,000 was donated for these three positions. The second installment of \$80,000 was donated to allow Sheridan College to continue to employ an additional dance instructor. Dance is a growth area in the performing arts program at Sheridan College and an additional instructor will allow additional growth.

A \$60,000 contribution was made to continue to employ a theater technician. This position assists as both an educator within the Center of the Arts building and helps with new community productions and events to be held in the Center for the Arts Center.

The third position is a recruiter for technical programs for \$60,000 in 2017. This position is a specialized recruiter that seeks prospective students that are looking for vocational training.

In 2017, Whitney also committed to granting \$80,000 per year for three years to fund a faculty position at the Whitney Center for the Arts. The grant was used to fund the employment of an art instructor to provide continuing education to Sheridan College students and local school district students in visual and performing arts.

Whitney Foundation continues certification for fiduciary excellence

Benefits of fiduciary assessments include: establishing evidence that Whitney is following a prudent investment process; increases long-term investment performance by identifying appropriate procedures for diversifying the portfolio across multiple asset classes and peer groups, evaluating investment management fees and expenses and selecting and terminating Investment Managers as appropriate.

The CEFEX standard of excellence for Investment Stewards is based on fiduciary practices that seek to increase long-term investment performance by diversifying the portfolio across multiple asset classes and peer groups, evaluating investment management fees and expenses, and selecting or terminating Investment Managers.

Investment stewards, such as Whitney Benefits Trustees and staff, have the primary responsibility for effective management and the adherence to investment fiduciary practices.

This fiduciary practice uncovers investment and procedural risks not previously identified, which assists in prioritizing investment management projects. This practice encourages Whitney

to compare its practices to peers, and assists in establishing benchmarks to measure Whitney's efforts. Whitney Benefits places the highest fiduciary importance on having the best practices in place. By its certification, Whitney can validate its adherence in fiduciary management and demonstrates that Whitney trustees and staff regard independent oversight of its financial activities as paramount.

Information on these fiduciary practices can be viewed by clicking on Whitney's on-line CEFEX certificate at www.whitneybenefits.org.

Investment Steward Certification Validated 10/22/2017

Computer programming, Project Lead the Way advance

In 2016, the Whitney board agreed to participate in several projects that would improve computer skills for Sheridan and Johnson County students over a three-year commitment.

Whitney Benefits created the opportunity for all Sheridan County school districts to participate in computer program training and equipment upgrades. Whitney's commitment for this

project was \$254,370 in 2017.

This includes the salary and benefits for a Sheridan College instructor to teach computer programming with the opportunity of participation by all Sheridan County School Districts and to support and strengthen computer programs offered through Sheridan College to Sheridan County school students.

The support from Whitney Benefits will allow the school districts, along with Sheridan College, to align computer programming and computer science programs with the nationally recognized curriculum and teacher development model, "Project Lead the Way".

PLTW will strengthen existing programming classes (large focus on computer coding) and

provide a connection between secondary and post-secondary programs.

Two classrooms on the main Sheridan College campus will be equipped to support the program. One room will be for use by secondary students; the second will support college students pursuing a degree.

WHITNEY BENEFITS COMMITS \$25.3 M TO SHERIDAN COLLEGE

In 2014, Whitney Benefits committed to the largest gift in the history of Sheridan College in the amount of \$25.3 million. In 2017, Whitney continued to fund this extraordinary gift with a grant of \$2,130,795.

The commitment from Whitney Benefits to Sheridan College includes the necessary \$1.3 million required to complete the \$8 million Mars Agriculture and Science Center renovation project, \$16 million to support the renovation and expansion of the fine and performing arts wing of the original Whitney Building, \$2 million to support infrastructure and parking improvements on the main campus and \$6 million for approximately half of the Tech Center renovation and expansion project.

The recently completed renovation and expansion of the fine and performing arts wing located at the north end of the current Whitney Building, referred to as the Whitney

Center for the Arts, includes space to enrich the learning experience for all students. In addition to improvements to learning spaces for music

and other performing arts, the Whitney gift will provide flexible and creative space to support the fine arts programs including wood and metal fabrication labs, foundry space for pouring aluminum, bronze and eventually iron and multi-use exhibition space.

The Mars Agriculture Center is a 15,000-square-foot state-of-the-art facility located on the south end of Sheridan College's main campus connecting to the existing and recently updated science center. The Agriculture Center focuses on providing real-world experiences for students.

In addition to high-tech classrooms, a herbarium, a greenhouse and a soils and agroecology lab, the new center includes a computerized commodities trading floor classroom for students studying in the ag-business program.

"The real benefit to laying out a plan like this is that the dollars committed can be leveraged time and time again," Whitney Benefits Trustee

Everett McGlothlin said. "We are hopeful that others will continue to support the stu-

dents of Sheridan College in order to continue the positive momentum and help change lives."

The \$6 million earmarked for the expansion and renovation of the Technical Education Center is approximately half of the total needed to provide a healthier, safer and more secure facility for students to gain vocational degrees and employable skills. College officials have requested the additional funds from the State of Wyoming.

"Our strategic direction focuses on doing our part to help Wyoming and the nation as a whole to prosper. We are so very fortunate to have many, many people here who believe in this goal and are willing to take action on behalf of the future generations who will continue to benefit from their efforts for years to come," Sheridan College President Dr. Paul Young said.

"Thank you to Whitney Benefits." Sheridan College officials hope to have the projects completed by late summer of 2019.

JUSTIN SHEELEY | THE SHERIDAN PRESS

Gift for CNA instructors at Sheridan College

In 2015, Whitney approved a three-year commitment to gift a total of \$185,400 to Sheridan College for a half-time certified nursing instructor. In 2017, \$60,200 was gifted for this instructor. The CNA program has been a great addition to the Sheridan College nursing department and recently the classroom component of the class has been offered in an online format that makes it more accessible to students. The students perform their clinical hours at one of the long-term care facilities and

generally only travel to campus to practice their skills and test. The benefits to students and the community from the CNA program include:

1. The CNA course is an entry level course that may lead to a lifelong career choice or serve as a stepping stone to a career in nursing or medicine. Many of the current Sheridan College nursing students work as CNAs while they attend nursing school.

2. There is currently an extreme shortage of CNAs across Wyoming so students

receiving this certification are guaranteed employment upon completion.

The Sheridan Center for a Vital Community is supporting a grassroots effort to address the need for quality care for the elderly in the home and in care centers. A crucial piece is adequate numbers of well-trained certified nursing assistants.

According to the Bureau of Labor and AARP, by the year 2020, CNA jobs will increase by 22 percent and CNA/Home Health Aide jobs will increase by 48 percent.

Whitney continues support of high-demand programs at college; thanks other donors for their help

In March 2013, Whitney Benefits announced the creation of the Jobs, Education and Technology (JET) Program. The program is a partnership with Sheridan College and other potential sponsors and will include funding for four new instructor positions for five years.

The positions will be in areas where there is tremendous demand for educated, skilled workers. The total cost to add four full-time teachers is approximately \$400,000 per year or \$2 million over five years.

The total pledge from Whitney Benefits is one-half of the \$2 million, or \$1 million, toward this effort, \$200,000 was paid in 2017.

The agreement is meant to allow SC to expand the offerings in such high demand areas as machine tool technology, diesel technology, welding technology, agriculture/horticulture and performing arts. In order to fully realize the plan, Whitney Benefits trustees looked to others in the community to match the pledge.

The city of Sheridan matched

the yearly pledge for the machine tool technology faculty position and the Perkins Foundation matched the yearly pledge for the welding technology faculty position.

An anonymous donor matched Whitney's yearly pledge for the general arts/visual arts faculty position and a second anonymous donor funded the agricultural science faculty position.

Whitney Benefits would like to extend a special thanks to these donors for their support of Sheridan College!

Whitney Community Advisory Group

The Whitney Community Advisory Group was created in 2004 to provide input from various community members about current Whitney projects

and events. The group helps to oversee operations at the Whitney Commons and Whitney Plaza facilities.

The current 2017 Community members include: Brandi Bilyeu Steve Carroll, Mark Demple, Pete Eliason, Judy Stallman and John Standish.

COURTESY PHOTO | WHITNEY BENEFITS

New equipment provided for nursing, dental programs at Sheridan College

In 2017, Whitney Benefits gifted \$75,000 to Sheridan College to support the Allied Health Science programs at

the Sheridan College campus. The grant was used to acquire a birth simulator for the nursing program and a panoramic X-ray

machine for the dental hygiene program. This equipment will allow students new and unique learning experiences.

97 dedicated individuals

Whitney Benefits Trustees

1,096 years of service

"The corporation trustees, acting as such, shall receive no pay for their services, as it seems to me that the selection and honor of serving on such a board for such purpose would, with the opportunity given to benefit the youth of their own county, attract men of ability and influence who would find the work a labor of love, so to speak, and would willingly fill the office of advisors and directors of the paid working officials into whose hands they commit the actual working out of their plans and instructions."
